

Highlights

Business Alignment

- Simple and Adaptable – Wired / Wireless Infrastructure Designed to Adapt to Changing Business Needs
- Investment Protection – Same Wired Switches and Wireless Access Points Can Be Managed On-Premise or from ExtremeCloud
- Control Application Quality of Experience – Prioritize Business Traffic and Applications and Eliminate Unwanted Traffic Directly at the Network Edge

Simple and Secure

- Zero-Touch Provisioning
- Policies That Let the Right People Access the Right Apps
- Integrated WIPS for Rogue AP Detection and Monitoring
- Built-In Tool for PCI Compliance Reporting
- Multi-Tier Account Configurations with Different Roles and Access Levels

Operational Efficiency

- Zero-Touch, Automated Provisioning of Managed Network Devices
- Simple Management, Faster Problem Resolution with Multi-Site, Cloud-Based Visibility and Control
- Integrated Wired / Wireless Network Management and Role-Based Access Control to Greatly Reduce Administration Time and Effort
- Adaptive Architecture to Reduce Complexity and Optimizes Information Flow for Each App

Support and Services

- Industry-Leading Customer Satisfaction and First-Call Resolution Rates
- Personalized Services, Including Site Surveys, Network Design, Installation, and Training

ExtremeCloud™

Simple, Flexible, and Business Aligned Cloud-Managed Wired and Wireless Networks

ExtremeCloud is a resilient and scalable cloud-based network management solution offered by Extreme Networks as a subscription service.

The network is your platform of engagement for clients and staff. We have designed ExtremeCloud to provide superior user experience by empowering you and the applications that drive your business. The combination of Extreme Networks' smart wired and wireless edges and the elasticity, resilience and scalability provided via state-of-the-art datacenters distributed strategically for worldwide availability allows you to respond to the changing needs of your business, at the speed of cloud, through a simple, multi-site aware user interface.

ExtremeCloud is subscription based, to align with your new business imperatives. Ease-of-purchasing, provisioning and ongoing operations are at the very core of ExtremeCloud, to allow you, and your team, to transform with your business, but without high upfront costs or complex infrastructure changes or software deployments.

ExtremeCloud supports both your corporate and guest networks with role based management for users, devices, and applications. The smart wired and wireless edges enable individualized experience including quality of service (QoS), call admission control, secure access policies, rate limiting, multicast, filtering, and traffic forwarding. These services are enabled via a unique, flexible and extensible distributed architecture that is easily provisioned and managed via an intuitive web interface.

ExtremeCloud managed switches and wireless access points are simple to deploy and manage, yet provide advanced enterprise grade functionality to allow you to ensure that your network provides consistent user experience for all your business applications, whether voice, data, or video.

ExtremeCloud is an easy to use and scalable cloud-based management platform that supports and transforms with your business. Combined with enterprise-grade wired and wireless cloud-managed devices, ExtremeCloud delivers a scalable and highly available pay-as-you go solution. Backed by Extreme Network's industry-leading global support and services, ExtremeCloud simplifies the difficult task of supporting your business transformation while ensuring a consistent user experience to endusers as they roam freely around your campus.

ExtremeCloud Aligns the Applications that Drive Your Network With Your Business Imperatives

ExtremeCloud on premise wired and wireless devices have the intelligence and processing capacity to handle real-time mobile applications that require seamless roaming across the campus. ExtremeCloud fully distributed architecture is designed to prevent heavy network utilization caused by the backhauling of data traffic to a centralized location. ExtremeCloud delivers visibility and control over traffic flows at the ingress point into the network up to layer 7. Applying enforcement rules at the entry point of the network ensures that business critical resources are protected from over-subscription and ensures a consistent user experience. A highly-adaptable and extensible flow-based architecture provides high-fidelity controls based on roles defined by what, who, and when services are needed. Different actions are supported at the rule level including allow, deny, VLAN segmentation, QoS marking, and rate limiting of applications, ensuring that services are available based on each customers' business requirements. The flow-based architecture provides unparalleled visibility into the session data with minimal impact to performance. Unique in the industry, Extreme Networks' policy-based infrastructure works independent of VLANs or SSIDs which allows the policy to roam with the user and/or device as they move about the campus and further simplifies the configuration and management of enterprise networks.

Web-Based Centralized Management Driven By Simplicity

ExtremeCloud provides network administrators with a centralized web-based interface designed to easily manage both infrastructure and services. This graphical interface allows network administrators to configure, enable, or disable each device or group of devices. ExtremeCloud consolidates data received from across your distributed networks and locations to provide meaningful statistics in easy-to-read dashboards and views to your team, wherever they are.

A robust and integrated Captive Portal makes personalized engagement easy and enables your administrator to configure different login/on-boarding methods. The built-in splash page customization lets end-customers login the way they want, including with social media. In addition, it offers a variety of tools for the administrator to manage and store the splash pages with branding

Multi-Site Management

ExtremeCloud provides centralized management of multiple virtual or physical sites, consolidating management information from across the entire network for a global and consistent experience. New services or policies are defined in just a few clicks and quickly deployed across one or more locations, or simply in a specific sub-section of your network, making it simple for you to test, then deploy globally new application driven services.

Security and Compliance

Security is built-into ExtremeCloud and the devices that it manages. During the manufacturing process of cloud-enabled network devices, a unique certificate is installed along with the cloud-discovery services to prevent man-in-the middle attacks and preserve the authenticity and confidentiality of communications between your wired or wireless network devices and ExtremeCloud. To ensure transparent connectivity through most firewall and NAT implementations, and eliminate the need for complex local infrastructure changes, ExtremeCloud wired and wireless edge devices use SSL over TCP/443 to discover and connect to ExtremeCloud. Administrative management sessions are secured over HTTPS/SSL and different levels of administrative access are available. To keep your business secure, ExtremeCloud offers integrated WIPS for rogue AP detection and monitoring, as well as a PCI compliance reporting tool for wireless networks.

Cloud Managed Security Cameras

The ExtremeCloud managed AP3916 delivers Wi-Fi services and video monitoring through a high-performance platform, with zero-touch provisioning, fast configuration and easy management. This feature rich 802.11ac Wave 2 and 802.11abgn indoor access point is built to complement existing surveillance solutions and delivers enterprise-grade performance and security services for K-12, universities, hospitals, clinics, government buildings and enterprise campuses. The user-friendly ExtremeCloud dashboard lets you centrally manage and monitor all your cameras for secure video monitoring.

ExtremeLocation

We integrated our ExtremeLocation into ExtremeCloud to make it easy for you to take advantage of this cloud-based indoor location tracking service. It allows you to better understand the behavior of visitors to your locations with advanced location analytics, for presence, proximity and zone location across stores. For retailers with distributed locations this offers visibility throughout all stores from one dashboard.

Proximity Marketing — with Bluetooth Low Energy (BLE) Sensors

We have BLE sensors integrated into our ExtremeWireless WING APs. These BLE beacons transmit Bluetooth signals to in-store apps on nearby smartphones so retailers can send ads and push notifications to shoppers based on specific locations.

Investment Protection

ExtremeCloud wired and wireless network devices firmware allows them to be managed locally or from ExtremeCloud. This unique capability allows you to adapt your network infrastructure to meet the changing needs of your business without costly hardware replacements or re-architecture.

High-Scalability

ExtremeCloud provides linear scalability from small to large network deployments. The cloud platform is designed to scale infinitely and adapt to your business transformation imperatives.

High-Availability and Self-Healing

ExtremeCloud delivers the perfect combination of high-performance and high-availability demanded by today's mobile user in an easy to deploy and simple to manage cloud solution.

ExtremeCloud is hosted in multiple regional datacenters to offer 99.99% availability. Each datacenter offers backup and redundant services to ensure that ExtremeCloud is available when you need it.

ExtremeCloud has separated management from services, allowing your smart wired and wireless edges to continue to deliver service, including authenticate new users, enforce policies or optimize user experience even though they are no longer connected to ExtremeCloud.

Dashboards, statistics, client status and list and device status are updated and synchronized as soon as the connection between ExtremeCloud and your cloud managed switches and wireless access points is restored.

ExtremeCloud

Key Capabilities	ExtremeCloud
Simple and Secure	
Zero-touch provisioning	✓
Access policies for apps	✓
Integrated WIPS for rogue AP detection and monitoring	✓
Built-in tool for PCI compliance reporting	✓
Multi-tier account configurations , role and access levels	✓
Simple web-based graphical interface	✓
Firewall-friendly	✓
Auto-provisioning of managed devices	✓
Remote firmware upgrades of on-premise equipment	✓
Mobile application for device registration, naming and location tagging	✓
Secure Socket Layer (SSLv3) / secured communications	✓
Out-of-band management	✓
RADIUS authentication to local authentication services	✓
Scalable and Dependable	
Worldwide availability and redundancy	✓
Multi-site management with common or dedicated service definitions	✓
Self-help administrator password reset	✓
Read-only administrator accounts	✓
Remote reboot of on-premise equipment	✓
Continuous service delivery regardless of connectivity status of switches and wireless access points to ExtremeCloud	✓
Smart and Business Aligned	
Application driven policies at the network edge	✓
Remote capture of local logging data for easy troubleshooting	✓
Flow-based access control	✓
Guest Services redirection to external captive portal	✓
Pay-as-you-grow	✓
Protect your investment – Same network devices for on-prem and cloud management	✓

Order Information for ExtremeCloud Devices

ExtremeWireless WiNG™ Access Points

Part Number	Product Name	Product Description
AP-8533-68SB40-1-WR	AP-8533-68SB40-1-WR	802.11ac Wave 2, Tri-Radio, dedicated sensor, BLE, internal antenna, 2xGE, Domain:Canada, Colombia, EMEA, Rest of World
AP-8533-68SB30-1-WR	AP-8533-68SB30-1-WR	802.11ac Wave 2, Tri-Radio, dedicated sensor, BLE, external antenna, 2xGE, Domain:Canada, Colombia, EMEA, Rest of World

ExtremeWireless™ Indoor Access Points

Part Number	Product Name	Product Description
31028	AP3915i-FCC	Dual Radio 802.11ac/abgn, Wave2, 2x2:2 MIMO indoor access point with five internal antenna array and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.01)
31029	AP3915i-ROW	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO indoor access point with five internal antenna array and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.01)
31031	AP3915e-FCC	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO indoor access point with three external antenna ports and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.01)
31032	AP3915e-ROW	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO indoor access point with three external antenna ports and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.01)
31034	AP3916ic-FCC	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO indoor access point with four internal antenna array, integrated BLE/802.15.4 radio and integrated video camera. (Requires ExtremeWireless V10.31 or higher)
31035	AP3916ic-ROW	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO indoor access point with four internal antenna array, integrated BLE/802.15.4 radio and integrated video camera. (Requires ExtremeWireless V10.31 or higher)
30912	AP3805i - FCC	For deployment in the US, Puerto Rico and Colombia - Dual band Dual Radio 802.11ac/abgn, 2x2:2 MIMO Indoor Wave 1 access point with four internal antenna array
30913	AP3805i - ROW	For deployment in the EU and Rest-of-World (verify country availability) - Dual band Dual Radio 802.11ac/abgn, 2x2:2 MIMO Indoor Wave 1 access point with four internal antenna array
31025	AP3912i - FCC	For deployment in US, Puerto Rico and Colombia - Wall-plate Dual band Dual Radio 802.11ac/abgn, 2x2:2 MIMO Indoor Wave 2 access point with four internal antenna array and an integrated BLE/802.15.4 radio
31026	AP3912i - ROW	For deployment in the EU and Rest-of-World (verify country availability) - Wall-plate Dual band Dual Radio 802.11ac/abgn, 2x2:2 MIMO Indoor Wave 2 access point with four internal antenna array and an integrated BLE/802.15.4 radio
31012	AP3935i - FCC	For deployment in US, Puerto Rico and Colombia - Dual band Dual Radio 802.11ac/abgn, 4x4:4 MIMO Indoor Wave 2 access point with eight internal antenna array and active/active E/N data ports
31013	AP3935i - ROW	For deployment in the EU and Rest-of-World (verify country availability) - Dual band Dual Radio 802.11ac/abgn, 4x4:4 MIMO Indoor Wave 2 access point with eight internal antenna array and active/active E/N data ports
31020	AP3935i - IL	For deployment in Israel only - Dual band Dual Radio 802.11ac/abgn, 4x4:4 MIMO Indoor Wave 2 access point with eight internal antenna array and active/active E/N data ports

ExtremeWireless™ Outdoor Access Points

Part Number	Product Name	Product Description
31016	AP3965i - FCC	For deployment in US, Puerto Rico and Colombia - Dual band Dual Radio 802.11ac/abgn, 4x4:4 MIMO Outdoor Wave 2 access point with eight internal antenna array and active/active E/N data ports
31017	AP3965i - ROW	For deployment in the EU and Rest-of-World (verify country availability) - Dual band Dual Radio 802.11ac/abgn, 4x4:4 MIMO Outdoor Wave 2 access point with eight internal antenna array and active/active E/N data ports
31050	AP3917i-FCC	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO outdoor access point with five internal antenna array and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.02)
31051	AP3917i-FCC	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO outdoor access point with five internal antenna array and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.02)
31055	AP3917e	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO outdoor access point with five external antenna ports and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.02)
31056	AP3917e-ROW	Dual radio 802.11ac/abgn Wave 2, 2x2:2 MIMO outdoor access point with five external antenna ports and an integrated BLE/802.15.4 radio (Requires ExtremeWireless V10.41.02)

ExtremeSwitching™ 210 Series

Part Number	Product Name	Product Description
16566	210-12t-GE2	210 Series 12 port 10/100/1000BASE-T, 2 1GbE unpopulated SFP ports, 1 Fixed AC PSU, L2 Switching with Static Routes, 1 country-specific power cord
16567	210-12p-GE2	210 Series 12 port 10/100/1000BASE-T PoE+ (123W), 2 1GbE unpopulated SFP ports, 1 Fixed AC PSU, L2 Switching with Static Routes, 1 country-specific power cord
16568	210-24t-GE2	210 Series 24 port 10/100/1000BASE-T, 2 1GbE unpopulated SFP ports, 1 Fixed AC PSU, L2 Switching with Static Routes, 1 country-specific power cord
16569	210-24p-GE2	210 Series 24 port 10/100/1000BASE-T PoE+ (185W), 2 1GbE unpopulated SFP ports, 1 Fixed AC PSU, L2 Switching with Static Routes, 1 country-specific power cord
16570	210-48t-GE4	210 Series 48 port 10/100/1000BASE-T, 4 1GbE unpopulated SFP ports, 1 Fixed AC PSU, L2 Switching with Static Routes, 1 country-specific power cord
16571	210-48p-GE4	210 Series 48 port 10/100/1000BASE-T PoE+ (370W), 4 1GbE unpopulated SFP ports, 1 Fixed AC PSU, L2 Switching with Static Routes, 1 country-specific power cord
16572	200 Series Dual Rack Mount Kit	Hardware kit for mounting two 12-port 200-Series switches (210 and/or 210) side-by-side in a 19-inch rack
16573	200 Series Wall Mount Kit	Hardware kit for wall mounting one 12-port 200-Series switch (either 210 or 210)

ExtremeSwitching™ 220 Series

Part Number	Product Name	Product Description
16560	220-12t-10GE2	220 Series 12 port 10/100/1000BASE-T, 2 10GbE unpopulated SFP+ ports, 1 Fixed AC PSU, L2 Switching with RIP and Static Routes, 1 country-specific power cord
16561	220-12p-10GE2	220 Series 12 port 10/100/1000BASE-T PoE+ (123W), 2 10GbE unpopulated SFP+ ports, 1 Fixed AC PSU, L2 Switching with RIP and Static Routes, 1 country-specific power cord
16562	220-24t-10GE2	220 Series 24 port 10/100/1000BASE-T, 2 10GbE unpopulated SFP+ ports, 1 Fixed AC PSU, 1 RPS port, L2 Switching with RIP and Static Routes, 1 country-specific power cord
16563	220-24p-10GE2	220 Series 24 port 10/100/1000BASE-T PoE+ (185W), 2 10GbE unpopulated SFP+ ports, 1 Fixed AC PSU, 1 RPS port, L2 Switching with RIP and Static Routes, 1 country-specific power cord
16564	220-48t-10GE4	220 Series 48 port 10/100/1000BASE-T, 4 10GbE unpopulated SFP+ ports (2 LRM Capable), 1 Fixed AC PSU, 1 RPS port, L2 Switching with RIP and Static Routes, 1 country-specific power cord
16565	220-48p-10GE4	220 Series 48 port 10/100/1000BASE-T PoE+ (370W), 4 10GbE unpopulated SFP+ ports (2 LRM Capable), 1 Fixed AC PSU, 1 RPS port, L2 Switching with RIP and Static Routes, 1 country-specific power cord
16572	200 Series Dual Rack Mount Kit	Hardware kit for mounting two 12-port 200-Series switches (210 and/or 220) side-by-side in a 19-inch rack
16573	200 Series Wall Mount Kit	Hardware kit for wall mounting one 12-port 200-Series switch (either 210 or 220)
10923	RPS-500p	External redundant power supply unit 500 Watts with cable. Power cord ordered separately.
10932	RPS-150XT	External redundant power supply unit 150 Watts with cable. Power cord ordered separately.

ExtremeSwitching™ X440-G2

Part Number	Product Name	Product Description
16530	X440-G2-12t-10GE4	X440-G2 12 10/100/1000BASE-T, 4 1GbE unpopulated SFP upgradable to 10GbE SFP+, 1 Fixed AC PSU, 1 RPS port, ExtremeXOS Edge license
16531	X440-G2-12p-10GE4	X440-G2 12 10/100/1000BASE-T POE+, 4 1GbE unpopulated SFP upgradable to 10GbE SFP+, 1 Fixed AC PSU, 1 RPS port, ExtremeXOS Edge license
16532	X440-G2-24t-10GE4	X440-G2 24 10/100/1000BASE-T, 4 SFP combo, 4 1GbE unpopulated SFP upgradable to 10GbE SFP+, 1 Fixed AC PSU, 1 RPS port, ExtremeXOS Edge license
16533	X440-G2-24p-10GE4	X440-G2 24 10/100/1000BASE-T POE+, 4 SFP combo, 4 1GbE unpopulated SFP upgradable to 10GbE SFP+, 1 Fixed AC PSU, 1 RPS port, ExtremeXOS Edge license
16534	X440-G2-48t-10GE4	X440-G2 48 10/100/1000BASE-T, 4 SFP combo, 4 1GbE unpopulated SFP upgradable to 10GbE SFP+ (2 combo/2 non-combo), 2 1GbE copper combo upgradable to 10GbE, 1 Fixed AC PSU, 1 RPS port, ExtremeXOS Edge license
16535	X440-G2-48p-10GE4	X440-G2 48 10/100/1000BASE-T POE+, 4 1GbE unpopulated SFP upgradable to 10GbE SFP+ (2 combo/2 non-combo), 2 1GbE copper combo upgradable to 10GbE, 1 Fixed AC PSU, 1 RPS port, ExtremeXOS Edge license

ExtremeSwitching™ X620

Part Number	Product Name	Product Description
17401	X620-16x-Base	X620 16 100Mb/1Gb/10GBASE-X SFP+ ports, 2 unpopulated power supply slots, 1 unpopulated Fan Module slot, ExtremeXOS Edge license
10945	Fan Module FB	Fan module for X620-16x, Front to Back airflow
10946	Fan Module BF	Fan module for X620-16x, Back to Front airflow
10930A	300W AC PSU XT	300W AC power supply for X620-16x, Front to Back airflow
10943	300W AC PSU BF	300W AC power supply for X620-16x, Back to Front airflow
10933	300W +24V/-48V DC PSU	300W AC power supply for X620-16x, Back to Front airflow
10944	300W DC PSU BF	300W DC power supply for X620-16x, Back to Front airflow

Notes Fan module and power supplies must be ordered separately for modular 16 port X620 systems.
Air flow direction of the fan module and power supplies must be the same.

Ordering Information for ExtremeCloud Subscription and Support Services

ExtremeCloud is available as a one year or discounted multi-year subscription service. The ExtremeCloud subscription includes our [ExtremeCloud Support](#) services, that are listed in the tables below.

We are using the following abbreviations in the tables:

- TAC = Technical Assistance Center
- NBD= Next Business Day
- AHR= Advanced Hardware Replacement
- OS = Operating System (software)

Ordering Information: 1-Year ExtremeCloud Subscriptions

ExtremeWorks® TAC and OS Services

Service Part Number	Service Name
ExtremeWireless Cloud Managed Access Points	
91000-31012	ExtremeWorks 1YR TAC and OS for the AP3935i-FCC
