

TyMetrix 360° powered by Expert AI

One platform, smarter performance

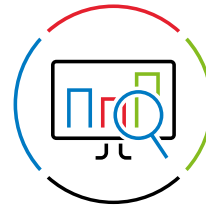

The pressure for corporate legal to transform from a cost center to a strategic driver of business value hasn't let up. The challenge – general counsel and legal operations teams continue to face daily struggles that prevent them from achieving that goal.

Workloads are increasing, headcount is static, and **processes are still manual**

Siloed technologies and data hinder confident, informed decision-making

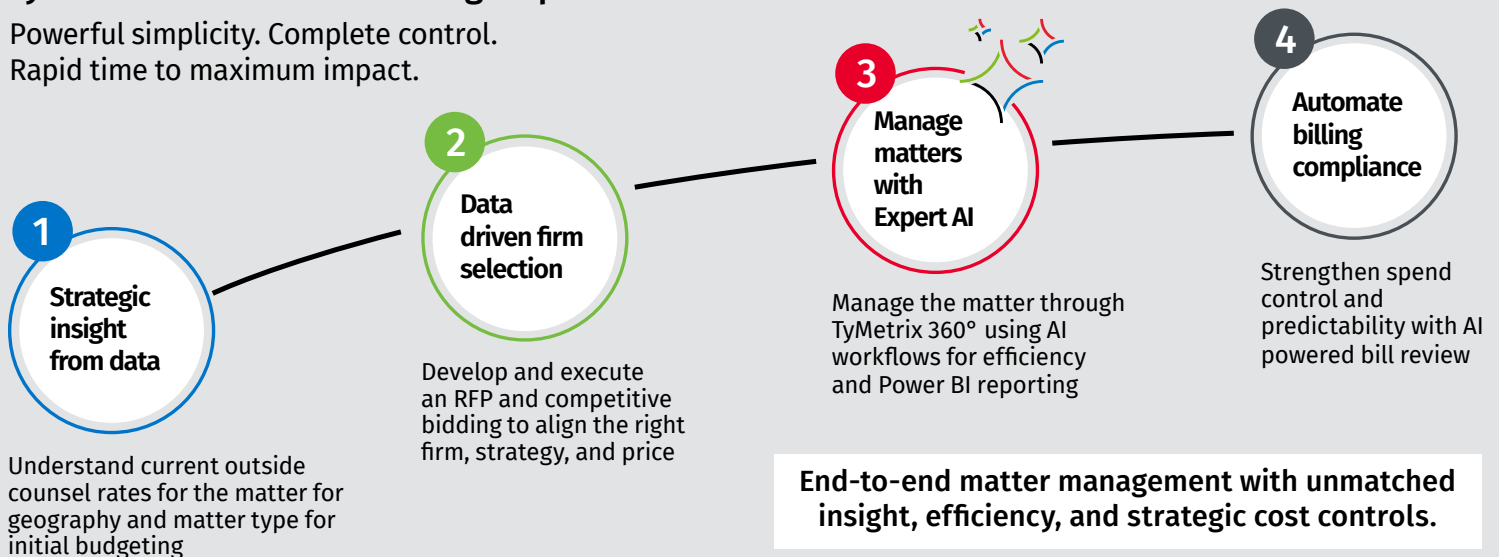

A lack of data and rate insights prevents proactive, strategic cost controls

Legal technologies have long promised to deliver the solution, but are often so complex and fragmented, the solution itself becomes another legal operations headache to manage.

TyMetrix 360° delivers what legal operations demands

Powerful simplicity. Complete control.
Rapid time to maximum impact.

Finally, legal operations can adopt a single, fully integrated legal platform with the essential solutions to address the most pressing pain points, from matter initiation to close.

Strategic insights enable proactive budgeting and rate benchmarking intelligence

- ✓ Compare outside counsel rates against the largest source of global benchmarking data, tailored to your region, industry, and matter type
- ✓ Strengthen financial planning and early matter budgeting with actionable insights driven Power BI analytics

Data-driven firm selection replaces guesswork with intelligent recommendations

- ✓ Look to historical performance, outcomes and value to identify firms
- ✓ Lock in competitive pricing with structured RFPs
- ✓ Increase outside counsel value with early strategic alignment that drives improved outcomes

Expert AI powers matter management workflows so you can power outcomes
