Sustainable Solutions

- Eco-friendly cooling water technology options
- Customized solutions to reduce operating costs through energy and water conservation
- Effective water treatment programs to help reduce greenhouse gases

Intelligent Water Management

CTVista®+ is a cloud-based intelligent water management platform designed to help you with:

- Data management
- Analytics
- Reporting
- Real-time guidance

ChemTreat continues to exceed customer expectations because we have a simple strategy: provide superior service with a long-term view, use the most current technology, and employ the best people. We leverage this winning formula to take on the most difficult water treatment problems and succeed where others fail.

ChemTreat's Enhanced Offerings

Automation & Control

- Fluorescence monitoring technology for traced treatment programs
- Web-enabled data management to provide real-time reporting and analysis to tablets, PCs and smartphones
- Preset alarms provide 24/7 notification of changes in key parameters

Customer Education

- Comprehensive team training to assist customers with startup of water management programs
- Seminars and workshops to share best practices and new technologies
- Audit programs to ensure efficiency of operations and highlight cost savings opportunities

Cooling Systems

- State-of-the-art chemistry for the prevention and control of scale, corrosion deposition, and microbiological growth
- Breakthrough green solutions for cooling water treatment
- Treatment programs developed to optimize water usage

Boiler Systems

- Full line of custom internal treatment chemicals to prevent corrosion and optimize system performance
- Programs to cover every phase of boiler operations, monitoring, and control
- Chemistries and cleaners to optimize the life and performance of pretreatment systems

*Enhanced offerings are optional services.
They are not part of all treatment packages.*
