

Water Treatment for HEALTHCARE FACILITIES

Institutional customers are constantly striving to increase asset longevity and maximize operational efficiency while reducing water and energy consumption. Healthcare facilities have turned to ChemTreat for the care and expertise they can trust.

ChemTreat continues to exceed customer expectations because we have a simple strategy: provide superior service with a long-term view, use the most current technology, and employ the best people. We leverage this winning formula to take on the most difficult water treatment problems and succeed where others fail.

The Best People

Leveraging Our Resources to Deliver Peace of Mind

- Global network of experienced field engineers with a vested interest in your success
- Application Technology team with unparalleled industry expertise and problem-solving capability
- R&D group that specializes in the development of customized solutions
- Full-service analytical lab that offers comprehensive testing and quick turnaround

Sustainable Solutions

Products & Services That Improve Performance While Protecting Natural Resources

- Customized solutions to reduce operating cost through energy & water conservation
- Effective water treatment programs for the reduction of greenhouse gases
- Maximizing performance of heating & cooling to ensure occupant comfort
- Programs tailored to helping customers achieve LEED certification

Reliable Protection

Ensuring Security For Your Brand, Assets, and People

- Help control threats associated with harmful pathogens common in building systems
- Maximizing system efficiency through improved heat transfer & control systems
- Extended HVAC life with coil cleaning & disinfection solutions
- Reduced health, safety & environmental liability through hands-free chemical delivery

Continuous Innovation

Advanced Technology For a Broad Range of Systems

- Customized products designed for unique water & equipment needs
- Eco-friendly, high-performance cooling technology
- Automated chemical delivery interfaced with computerized building management systems
- Web-based, 24/7 water treatment communication & control programs

ChemTreat's Enhanced Offerings

Automation & Control

- Fluorescence monitoring technology for traced treatment programs
- Web-enabled data management to provide real-time reporting and analysis to tablets, PCs and smartphones
- Preset alarms provide 24/7 notification of changes in key parameters

Customer Education

- Comprehensive team training with the startup of water management programs
- Seminars and workshops to communicate best practices and new technologies
- Audit programs to ensure efficiency of operations and highlight cost savings opportunities

Cooling Systems

- State-of-the-art chemistry for the prevention and control of scale, corrosion, deposition, and microbiological growth
- Breakthrough green solutions for cooling water treatment
- Treatment programs developed to optimize water usage

Boiler Systems

- Full line of custom internal treatment chemicals to prevent corrosion and optimize system performance
- Programs to cover every phase of boiler operations, monitoring, and control
- Chemistries and cleaners to optimize the life and performance of pretreatment systems
