

# COMMVAULT ENHANCES AND EXTENDS HPE SIMPLIVITY WORLD-CLASS DATA PROTECTION

## Why Commvault?

Commvault is part of the HPE Complete program, helping you with the convenience of one-stop shopping for tested and validated HPE and Commvault end-to-end solutions for data protection and data management across the entire HPE storage portfolio.

Commvault has the largest breadth and depth of coverage across the HPE server and storage portfolios of any vendor.

Commvault also has the largest ecosystem of supported enterprise applications, hypervisors, storage arrays, containers, and cloud storage providers.

Commvault was awarded the [2019 Technology Partner of the Year](#) and [2020 Momentum Storage Partner of the Year](#) for Storage Solutions from HPE for tightly integrating its data protection and data management solutions across the HPE storage and server portfolios.

## Heterogeneous, granular-level data protection beyond your HPE SimpliVity federation—with complete data portability.

### HPE COMPLETE PRODUCTS

Commvault enhances HPE SimpliVity's already advanced, industry-leading HCI data protection with:

- **Robust multicloud scale:** Integration with 40+ cloud providers extend HPE SimpliVity cloud capabilities, adding hybrid cloud flexibility, scalability, and instant migration cloud to cloud and back to on-premises.
- **Live Sync/Live Mount instant VM replication:** Extend native HPE SimpliVity on-premises capabilities to enable cloud-based instant recovery, DR on demand and instant migration VM-to-VM format.
- **Rapid operational recovery to file level:** Commvault 4-D indexing and Application-Aware technology enable granular recovery and data cataloging within and beyond your HPE SimpliVity federation.
- **Industry-leading data coverage:** From containers to legacy applications, Commvault software ensures broad workload coverage within and beyond your HPE SimpliVity federation.

### RECOVER WHAT YOU NEED WHEN YOU NEED IT WITH DR ON DEMAND

Granular indexing and rapid recovery across both traditional and cloud-born applications means you'll be able to recover and restore the exact data you need, when you need it—regardless of where your data lives. DR on Demand and instant, rapid recovery with Commvault Live Sync and Live Mount deliver ultimate public cloud and VM format flexibility to your HPE SimpliVity federation—and beyond.

From edge to cloud, Commvault has your data covered and protected with a single platform.

### EXTEND AI-DRIVEN AUTOMATION AND RANSOMWARE DETECTION ACROSS YOUR DATA ENTERPRISE

Extend powerful, AI-driven ransomware protection (that also protects you against other malicious threats) beyond your HPE SimpliVity federation with Commvault software. Commvault automation removes the potential of human error from routine tasks, while ransomware detection spots anomalies, warns you, isolating potential problems before they impact the business.

With Commvault data protection, all data within your entire hybrid cloud environment is protected, recoverable, and discoverable.

## HPE Complete benefits

- **Single HPE purchase order**—One-stop shop for both HPE and third-party branded products.
- **Build with confidence**—HPE Complete Assured validation of compatibility and interoperability.
- **Customer experience**—Simplified solution deployment with custom HPE integration guides and tools.
- **HPE Complete Assured**—HPE Complete Assured testing validates reliability and interoperability of partner products with HPE storage and server solutions and helps ensure solution concurrency over time.

## ACHIEVE GLOBAL DATA PORTABILITY, FLEXIBILITY, AND SCALABILITY ACROSS MULTICLOUD

Commvault's advanced integration support for HPE SimpliVity enables you to leverage HPE's industry-leading, intelligent HCI solution as the on-premises components of your hybrid cloud strategy and architecture.

Adding Commvault enables you to:

- Achieve complete data portability with instant migration capability—seamlessly move your workloads from HPE SimpliVity to your public cloud(s) of choice, and back.
- Eliminate data silos to reduce data sprawl and more efficiently manage your data resources.
- Gain visibility into all your data, regardless of where your data lives.

- Instantly restore your data across data centers, cloud, and the edge—when and where your data is needed.

## COMMVAULT: UNMATCHED INDUSTRY LEADERSHIP

For over 20 years, Commvault has focused on helping organizations gain maximum value from their data.

Commvault's credentials:

- **8 years running:** In the Leaders quadrant of Gartner's 2019 Magic Quadrant for Data Center Backup and Recovery Solutions.
- **A Leader in the Forrester Wave: Data Resiliency Solutions Q3 2019:** Top-ranked in current offering, highest scores in numerous categories.
- Recognized by CRN Magazine as "One of the 100 Coolest Cloud Companies" of 2020.
