Universal Wireless AP305C/CX

Wi-Fi 6 (802.11ax) Indoor Access Point with Support for Multiple Extreme Operating Systems

In today’s world, as businesses make capital investments in their technology infrastructure, they must have a keen eye on how those investments can improve operational efficiency and reduce cost. With Extreme’s Universal infrastructure, customers can take advantage of hardware agility and reduce the total cost of their network by adopting platforms that allow them to run multiple Extreme operating systems. This multi-persona capability provides increased product flexibility and reduced hardware obsolescence.

The AP 305C/CX is part of Extreme’s Universal Wi-Fi platform and provides users the choice of Wi-Fi operating system (IQ Engine or WiNG Operating System). Customers have the flexibility to select the OS at start-up or at a later stage and the AP will assume the features/capabilities of the selected OS. When first booted, the AP305C/CX automatically connects to ExtremeCloud IQ to find its persona. The pre-provisioned OS persona is then remotely enabled on the AP305C/CX AP and the user can stay in the cloud or select manage the device locally.

The AP305C/CX are indoor enterprise APs based on a new system-on-a-chip (SoC) with two built-in dual-band radios providing the best value with Wi-Fi 6 high efficiency. The AP305C/CX platforms are the first generation of APs to run multiple Extreme operating systems, providing flexibility and choice of on-premise or cloud deployment, while minimizing total cost of ownership. You have your choice of models with either integrated or external antennas. Advanced radio technology delivers 802.11ax 2x2:2 data rates up to 2.4 Gbps concurrently on both the 2.4 GHz and 5 GHz radios. These 2x2:2 APs continue the Extreme tradition of software-selectable radios (SSRs) capable of dual 5 GHz connectivity for indoor and industrial environments.

This enterprise-grade access point is ideal for budget-conscious enterprises who do not want to sacrifice performance.

The AP305C/CX comes in an aesthetic design and can fit in the palm of your hand. Both models are eco-friendly APs partially made from recycled materials. Also included is an integrated light sensor and integrated power meter to help conserve power consumption*. The easy install ceiling mount for quick installation and unique way to hide the Ethernet cables for an aesthetically pleasing installation.

Despite the exponential growth of users, BYOD devices, IoT, high-bandwidth applications and security threats straining the infrastructure, the AP305C/CX combines performance, security services and insightful ML/AI management capabilities to deliver an enterprise class solution at a value price.

* future software release
Security

The AP305C/CX delivers the highest level of security services, beginning with support for the latest Wi-Fi Alliance WPA3 security certifications. Additionally, the AP305C/CX supports a stateful L2-L7 DPI firewall for context-based access security, Private Pre-Shared Key (PPSK) and much more.

Wi-Fi 6 Technology

Prior generations of 802.11n, 802.11ac wave 1 and 2, can be considered generational improvements with an emphasis on faster speed. 802.11ax technology instead enhances Wi-Fi efficiency as well as speed, taking Wi-Fi networks to an entirely new level. To learn more about 802.11ax, go to: https://www.extremenetworks.com/are-you-ready-for-802-11ax

Universal Hardware

The AP305C/CX as a universal hardware platform comes with a dual-persona capability allowing user choice of the Wi-Fi operating system (OS). Either the IQ Engine operating system or the WiNG Operating System persona can be enabled as required. The desired persona can be selected at start-up or changed at a later stage. Once selected, the AP305C/CX assumes the features/capabilities of the selected OS. The AP305C/CX persona activation can be done manually at bootup, including via the system CLI. Or, it can be automated by pre-provisioning the AP305C/CX persona in ExtremeCloud IQ. When first booted, the AP305C/CX automatically connects to ExtremeCloud IQ to find its persona. The pre-provisioned OS persona is then remotely enabled on the AP305C/CX system, eliminating the need for manual selection.

Management Analytics

In conjunction with Extreme Management system, cloud or on-premises, the AP305C/CX provides a very rich set of data displayed via context driven widgets, representing historical data or a combination of historical and current data. This provides context-specific granularity with perspective views for locations, network, APs, individual client devices, as well as policy roles. In each context, administrators can adjust dashboards make a widget library.

Programmable Radios

Extreme launched the industry’s first software defined 802.11ax access point supporting not only a dual 5 GHz capability, but also two software programmable modes to optimally manage radios to provide the highest level of client performance. The AP305C/CX intelligent monitoring of the software-configurable radios enables network managers to configure network RF technology based on user environment and configure the access points in different modes as required.

Integrated BLE and USB Port

To support both IoT and Guest Engagement services the AP305C/CX integrates Bluetooth to connect with IoT devices wireless to engage loyalty customers with Apple iBeacon. Enterprises can use API driven applications to send advertisements directly to shoppers, guests, and conference attendees. This makes it ideal for businesses to advertise their app download pages, captive portals, or site-specific information.
Product Specifications

Radio Specifications

Max Users
• SSID per Radio/Total: 8/16
• Users per Radio/total: 512/1024

802.11a
• 5.150–5.850 GHz Operating Frequency
• Orthogonal Frequency Division Multiplexing (OFDM) Modulation
• Rates (Mbps): 54, 48, 36, 24, 18, 12, 9, 6 w/auto fallback

802.11b
• 2.4–2.5 GHz Operating Frequency
• Direct-Sequence Spread-Spectrum (DSSS) Modulation
• Rates (Mbps): 11, 5.5, 2, 1 w/auto fallback

802.11g
• 2.4–2.5 GHz Operating Frequency
• Orthogonal Frequency Division Multiplexing (OFDM) Modulation
• Rates (Mbps): 54, 48, 36, 24, 18, 12, 9, 6 w/auto fallback

802.11n
• 2.4–2.5 GHz and 5.150–5.850 GHz Operating Frequency
• 802.11n Modulation
• Rates (Mbps): MCS0 - MCS15 (6.5MBps - 300Mbps)
• 2x2 Multiple-In, Multiple-Out (MIMO) Radio
• HT20 High-Throughput (HT) Support (for both 2.4 GHz and 5 GHz)
• HT40 High-Throughput (HT) Support for 5 GHz
• A-MPDU and A-MSDU Frame Aggregation

802.11ac
• 5.150–5.850 GHz Operating Frequency
• 802.11ac Modulation (256-QAM)
• Rates (Mbps): MCS0 - MSC9 (6.5Mbps - 867Mbps), NSS = 1-2.
• 2x2:2 Stream Multiple-In, Multiple-Out (MIMO) Radio
• VHT20/VHT40/VHT80 support
• TxBF (Transmit Beamforming)

802.11x
• 2.4–2.5 GHz and 5.150–5.850 GHz Operating Frequency
• 802.11x Modulation (1024-QAM)
• Dual-band OFDMA
• Rates (Mbps):
  • 5G: HE0-HE11 (8 Mbps – 1200 Mbps).
  • 2.4G: HE0-HE11 (8 Mbps – 574 Mbps).
• 2x2:2 Stream Multiple-In, Multiple-Out (MIMO) Radio
• HE20/HE40/HE80 support for 5 GHz
• HE20 support for 2.4 GHz
• DL SU-MIMO and MU-MIMO
• TxBF (Transmit Beamforming)

BLE 5 Radio Bluetooth® Low Energy (BLE)

Interfaces
• (1) Autosensing 10/100/1000 BASE-T Ethernet PoE (Power over Ethernet 802.3af) Port
• USB2.0, Type A 5V, 0.9A
  • USB power <= 500 mA - 802.3af
  • USB power > 500 mA - 802.3at

Power Options
• Power Draw: Typical: 9.98 W; Max: 11.28 W (w/o USB)
  • Typical: 14.98 W; Max: 16.28 W (w/USB)
• 802.3af Power over Ethernet (PoE) capable Gigabit Ethernet port (RJ-45 power input pins: Wires 4,5,7,8 or 1,2,3,6)
• Support 802.3at/802.3af Power over Ethernet injector

Power Specifications
• IEEE 802.3af PoE Power

Physical
• AP 305C: 5.2" x 5.2" x 1.5" (133mm x 133mm x 37mm)
• AP 305CX: 5.8" x 5.8" x 1.5" (147mm x 147mm x 39mm)
• AP 305C and AP 305CX: 9 lbs (.4kg)
• TPM Chip

Antennas
AP305C - Internal Antennas
• (3) Integrated dual band 2.4/5GHz omnidirectional antennas
• (1) Integrated single band 5GHz omnidirectional antenna
AP305CX - External Antennas
• (4) external omnidirectional 2.4/5 GHz dual band antennas (RP SMA connectors)

Mounting
• AP support 15/16 flush ceiling tile and is integrated to AP
• Wall Mount sold as an accessory
• Ceiling Tile Recessed 15/16" sold as an accessory
• Built-in slot for Kensington type locks

Environmental
• Operating: 0 to 40 ºC, Storage: -40 to 70 ºC
• Humidity: 10% to 95% (non-condensing)

Environmental Discharge
• +/-8 kV (contact discharge)/+/-15 kV (Air Discharge)

Environmental Compliance
• UL2043 - Plenum Rated

Regulatory Compliance
Product Safety Certifications
• IEC 62368/60950-1, EN 62368/60950-1, USA 62368/60950-1, AS/NZS 62368/60950.1
• RoHS Directive 2011/65/EU

Radio Approvals
