

Providing Solutions to

Used Oil Recyclers and Re-Refiners

As one of the world's largest specialty chemical providers, ChemTreat, Inc. is strategically positioned to meet the current and future needs of the used oil industry. Our customized solutions address the challenges faced with recycling, treating, and processing used oils and the resulting waste streams. We have specifically formulated offerings to increase plant yield and reduce process disposal costs. Additionally, ChemTreat can help solve your cooling water, boiler water, and wastewater management objectives.

Our expertise and understanding around the variability of used oils ensures we provide treatment programs to help our customers protect their assets, lower operational costs, increase profits, and achieve sustainability goals.

The ChemTreat Model

At ChemTreat, every decision is made to benefit our customers. Our unique model includes:

- The most experienced personnel: 16 years' average experience among field engineers and 21 years' experience among technical support staff
- Long-term relationships: our engineers remain in their territory for their entire careers, providing unsurpassed service
- The lowest representative turnover in the industry ensures a consistent approach to everyday operations
- Customized solutions: ChemTreat has over 1,200 products to meet specific needs

R&D Laboratory

The ChemTreat R&D team is staffed with 50 full-time microbiologists, scientists, and PhDs, specializing in unique, customized solutions to your specific problems. Our state-of-the-art analytical laboratory offers fully-automated, computer-supported equipment using chromatography, diffractometry, spectrophotometry, and spectroscopy.

Operational Excellence

We deliver exceptional service without question.

Our staff works hand-in-hand with your team to deliver the right chemistry for the right process in your plant.

97% of our packaged chemical orders are shipped within four days.

10:1 field personnel to technical specialist ratio – the best in the industry.

ISO-certified to the 9001 and 14001 standards.

Custom deliveries are also available through our Neat Delivery and mini bulk systems.

OFFERINGS SPECIFIC TO THE USED OIL INDUSTRY

- Emulsion Breakers
- Coagulants
- Flocculants
- Surfactants
- Iron Sulfide Scavengers
- Boiler Water Treatment
- Microbiocides
- Automated Feed and Control Equipment
- Cooling Water Treatment
- H₂S Scavengers
- Deashing Chemistry
