► Solution Brief: Huawei All in One Backup Solution

Huawei All-in-One Backup Solution brings enterprise class seamless, automated backup to SMB customers. Commvault and Huawei offer a portfolio of data protection solutions that fit small and medium businesses as well as the remote office to the data center in large enterprises.

Huawei All-In-One Backup node is an integrated backup solution designed for Small to Medium sized Businesses (SMBs), enterprise companies, and branches of large enterprises. It deploys Huawei RH2288H V3 as hardware and industry-leading Commvault® software as backup software; it assembles backup server, backup media, and backup software in one package, saving construction cost and simplifying backup management.

CHALLENGES SOLVED

- Modernizing virtual environments
- Maintaining operational consistency at remote locations
- Addressing data protection needs without additional staffing
- Simplifying data infrastructure complexity
- Addressing disaster recovery planning
- Unifying departmental systems
- Achieving regulatory compliance

From simple backup to cloud gateway, Huawei offers a solution that can be applied in a number of use cases such as:

- For small to medium sized companies, Huawei offers an All-in-One Backup Solution for backup and disaster recovery.
- For large companies, Huawei offers a centralized backup solution that include snapshots and deduplication to manage multiple sites
- Further, in China, Huawei offers a solution for Data Protection as a service providing a gateway to the cloud.

BENEFITS

- Reduce administrative overhead up to 80%. Key capabilities are built on a common code base and share a common management console, dramatically simplifying administrative processes.
- Reduce your disaster recovery costs. Advanced disaster recovery services allow you to reduce costs and recovery times, and quickly deploy business-continuity plans.
- Reduce annual support costs up to 35%. Manage data protection and retention as a service for tens of thousands of workers, all from one easy-to-manage platform.
- Lower your total cost of ownership. Reduce administrative time and training and gain better capacity utilization when compared to point solutions.

KEY FEATURES

- Preconfigured, scalable architecture
- Snapshot orchestration
- Deduplicated, encrypted copies
- Any tier
- Any platform
- Any data type
- Orchestrated disaster recovery
- Advanced search and eDiscovery
- Built-in analytics
- Powerful User Interface
- Universal access

Our strategic alliances unlock unique value for our Partners, available nowhere else.

HUAWEI

Huawei is a leading global information and communications technology (ICT) solutions provider. Our aim is to enrich life and improve efficiency through a better connected world, acting as a responsible corporate citizen, innovative enabler for the information society, and collaborative contributor to the industry. Driven by customer-centric innovation and open partnerships, Huawei has established an end-to-end ICT solutions portfolio that gives customers competitive advantages in telecom and enterprise networks, devices and cloud computing. Huawei's 170,000 employees worldwide are committed to creating maximum value for telecom operators, enterprises and consumers. Our innovative ICT solutions, products and services are used in more than 170 countries and regions, serving over one-third of the world's population. Founded in 1987, Huawei is a private company fully owned by its employees.

COMMVAULT

Commvault is a leading provider of data protection, and cloud and information management solutions, helping companies worldwide activate their data to drive more value and business insight and transform modern data environments. With solutions and services delivered directly and through a worldwide network of partners and service providers, Commvault solutions comprise one of the industry's leading portfolios in data protection and recovery, cloud, virtualization, archive, file sync and share. Commvault has earned accolades from customers and third party influencers for its technology vision, innovation, and execution as an independent and trusted expert. Without the distraction of a hardware business or other business agenda, Commvault's sole focus on data management has led to adoption by companies of all sizes, in all industries, and for solutions deployed on premise, across mobile platforms, to and from the cloud, and provided as-a-service. Commvault employs more than 2,700 highly- skilled individuals across markets worldwide, is publicly traded on NASDAQ (CVLT), and is headquartered in Tinton Falls, New Jersey in the United States.
