

Bio-Clear & Bio-Clear Watch

BIOCIDE TREATMENT AND CONTROL FOR ADIABATIC COOLING SYSTEMS

Bio-Clear Biocide

Smart Release Bio-Clear (DBNPA) is a solid, broad-spectrum biocide designed to treat fouling and corrosion in adiabatic cooling systems.

Benefits of Bio-Clear:

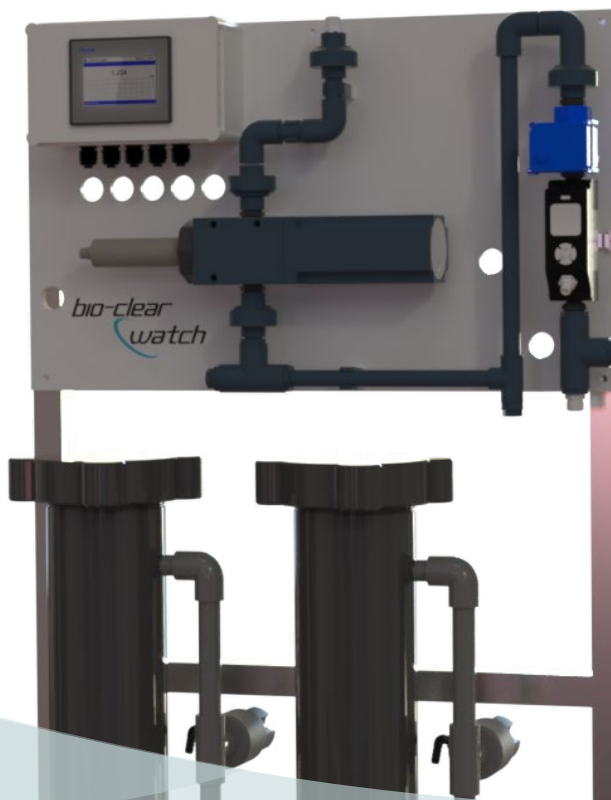

- Treatment targets a diverse range of bacteria
- Nonoxidizing formulation helps preserve equipment
- Smart Release membrane canister releases biocide gradually to maintain consistent treatment over an extended period
- Automated feed system reduces the need for direct intervention by on-site personnel

Bio-Clear Watch Sensor

The Bio-Clear Watch sensor allows you to:

- Precisely regulate the release of Bio-Clear into your system
- Ensure targeted and consistent concentration of biocide
- Monitor and adjust product feed to maintain the desired parts per million (ppm) of product to enhance system efficiency while reducing chemical waste
