

Commvault® Cloud powered by Metallic® Al

Commvault Cloud delivers enterprise-proven data security and protection—as a simple, cloud-native solution. Built with proven technology and best practices. Commvault Cloud data security and cyber recovery that mitigates data loss risks and emerging cyber threats. With Commvault and Azure, you'll also get flexibility—from pricing to storage options—in a cloud-native solution that truly scales.

HOW WE ARE DIFFERENT

- Award-winning cloud-based protection from trusted leaders, Commvault, and Microsoft Azure
- Ultimate, layered security for ransomware protection
- Advanced automation, AI, and threat intelligence
- Proven performance with fast, granular, and at-scale recoveries
- Air-gapped, isolated, and immutable data copies
- Flexible, subscription-based pricing with no capex investment

Cloud-based back up done right, for a change.

vmworld 2020

COMMVAULT CLOUD AND MICROSOFT AZURE CYBER RESILIENCE FOR WHEREVER YOUR DATA LIVES

VM & Kubernetes

Microsoft Hyper-V, VMware, Azure VM, Kubernetes, AWS, AVS, VMware Cloud.

Database

For Microsoft SQL, Azure PaaS (if only to Azure DBaaS or Azure databases), AWS databases, Oracle, SAP HANA.

File & object

For Windows Server, Azure Blob & Files, OCI Object Storage, Amazon S3, Linux/UNIX.

Endpoint

For laptops and desktops.

Air-gapped storage

For isolated cloud storage.

Microsoft 365

For Exchange, Teams, SharePoint, OneDrive, Project, and more.

Active Directory

For Azure AD and Microsoft AD.

Microsoft Dynamics 365

For CE applications and Power Platform.

Salesforce

For Salesforce Cloud data.

Commercial and Government Cloud offerings available

Magic Quadrant

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

Trust your cloud

Get security from the ground up, backed by experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
