

# MERRILL DATASITEONE

## SECURITY. INTEGRITY. ACCOUNTABILITY. *In Every Transaction.*

Merrill DatasiteOne is a cloud-based virtual data room solution that helps companies worldwide close more deals, faster, with the strongest combinations of deal making and reporting support. For the first time, organizations can carry out, from beginning to end, essential business communications, execute critical transactions, and meet global regulatory requirements — all via a secure, controlled and easy-to-use platform.

But it's not just about tools and technology. It's about leveraging them correctly. Only Merrill Corporation brings to the table nearly 50 years of experience managing and assisting complex, transactions across all industries. We've built an unmatched body of technical, process and regulatory knowledge over decades and tens of thousands of engagements.

### LIGHTNING-FAST SPEED

Critical business communications often cannot wait. Merrill DatasiteOne is nimble by design and can be deployed in less time than a 30-minute conference call.

- + Projects can go live in minutes
- + Set up users and access in three clicks, even if outside the organization
- + Create admin accounts without involving IT
- + Fast search across ALL content types, with results previews and contextual results

### IRONCLAD SECURITY

Security is not just a box to check on a features list. For Merrill DatasiteOne users, it's a competitive advantage, with layers of technology and protocols to protect your sensitive business information.

- + Multifactor authentication with email, SMS and soft-token
- + End-to-end encryption
- + Compliant with EU-US Privacy Shield framework
- + ISO 27001 certified since 2008
- + Enhanced by Microsoft's Azure cloud platform

### ABSOLUTE CONTROL

Exercise total control over your projects and keep them moving forward with a range of management tools that give you complete oversight of each project as well as insight into the interests and actions of users.

- + Securely grant user access, both inside and outside the organization
- + Define user permissions at the file room, folder and document level
- + Full audit trail -- and tracking -- of all user actions, down to the page and to the second

### EFFICIENT & EASY TO USE

Technology can do amazing things but only amazing technology makes it effortless. If you can use office software and a search engine, you can use Merrill DatasiteOne.

- + Intuitive interface designed with customers input and needs
- + Drag-and-drop file uploading
- + Intuitive dashboard gives you a view into your entire project
- + Search ALL content in a single query, regardless of format or file type

### UNPARALLELED SERVICE

Only Merrill DatasiteOne provides always-ready omnichannel support to clients in every industry, in every region of the world. Whether via phone, email or chat, assistance from a live VDR project manager is always just seconds away.

- + Sector-focused, in-house service teams (average 7 years' industry experience)
- + Unparalleled project management extends your company's capabilities
- + Range of service offerings from full white glove service to online self-service
- + 24/7/365 worldwide support; 14 languages spoken

Merrill Corporation secures solutions at every phase, so you can secure ongoing impact and growth.
